

Cymbiotika Shilajit Mineral Resin

Shilajit Live Resin® by Pürblack™ has joined forces with the Cymbiotika family to bring you the highest quality Shilajit on Earth. This exclusive formula contains 3 TIMES THE GOLD content as the original. Our intention is to assist your body in reaching it's maximum potential. Cymbiotika Shilajit Black Gold is a complex mineral resin sourced from high elevations in the most pristine parts of the world. This ancient super nutrient has been used for centuries in Ayurvedic and European medicine to not only heal the body of specific deficiencies, but also activate full cellular potential. This is the most powerful adaptogen available on the market, shown to enhance our metabolism, directing the mitochondria to convert fats and sugars into ATP — our main source for cellular energy.

Ingredients

- Pure Live Raw Shilajit Resin
- 333 ppm Elemental Gold
- 100 ppm Elemental Silver

Directions

We recommend starting your day with a warm glass of spring or purified water and a dose of Cymbiotika Shilajit. This will activate your cells, wake up your body, and balance your entire brain's chemistry. Full power! Repeat again at night to assist in a deep restful sleep or to curb any nighttime cravings.

Shilajit

High potency mineral resin

Who is this product for?

This product is great for adults and children 2+, vegans and non vegans.

It is for those looking to alkalize their bodies and assist the removal of any toxins or inorganic materials inside the body. It's great for athletic recovery, liver support, antiaging, beauty, collagen production, muscle soreness, pain, inflammation, sleep, general health, and much more.

What is Shilajit?

Shilajit is a complex mineral resin sourced from high elevations in the most pristine parts of the world. This ancient super nutrient has been used for centuries in Ayurvedic and European medicine to not only heal the body of specific deficiencies, but also activate full cellular potential. This is the most powerful adaptogen available on the market, shown to enhance our metabolism, directing the mitochondria to convert fats and sugars into ATP — our main source for cellular energy.

Cymbiotika's Shilajit

Is a patented formula. Bottled in a UV protected Miron Glass jar. The perfect travel size. Shilajit has a bitter taste. If a customer is sensitive to the flavor they can roll it up into a small ball and swallow like a pill or use the small metal spoon to dissolve the shilajit in an 8oz glass of warm water, coffee, or tea. This is a great product to take daily as it assists with absorption of minerals, herbs and vitamins.

Shilajit Benefits

- May assist in absorption of nutrients
- Alkalizing effect
- Antiviral properties
- May support Healthy Detoxification
- May boost energy levels
- May assist in athletic performance and recovery
